Journal of the Neurological Sciences 133 (1995) 208–209

JOURNAL OF THE
NEUROLOGICAL
SCIENCES

Contents of Volume 133

Number 1 – November 1995

Editorial

Myelin basic protein and multiple sclerosis
S.D. Cook (USA) 1

Basic Section

Research articles

Activation of $p21^{raa}$ by nerve growth factor in neuroblastoma cells
S.A. Burchill, P.A. Berry and I.J. Lewis (UK) 3

Ouabain sensitive Na^+/K^+-ATPase content is elevated in *mdx* mice: Implications for the regulation of ions in dystrophic muscle
J.F. Dunn, K.A. Burton and M.J. Dauncey (UK) 11

In vivo evidence of abnormal mechanical and oxidative functions in the exercised muscle of dystrophic hamsters by ^{31}P-NMR
E. Le Rumeur, N. Le Tallec, C.J. Lewa, X. Ravalec and J.D. De Certaines (France, Poland) 16

Deficiency of a neuronal growth-sustaining factor in fibroblasts of patients with Alzheimer's disease
A.V. Plioplys (USA) 24

Clinical Section

Research articles

Excessive glutamine sensitivity in Alzheimer's disease and Down syndrome lymphocytes
M.A. Peeters, A. Salabelle, N. Attal, M.-O. Rethore, C. Mircher, D. Laplane and J. Lejeune (France) 31

Frontal and parietal transcranial magnetic stimulation (TMS) disturbs programming of saccadic eye movements
W.H. Zangemeister, A.G.M. Canavan and V. Hoemberg (Germany) 42

Clinical and magnetic resonance image correlation in idiopathic cerebellar ataxia
K. Abe, Y. Nishikawa, H. Fujimura, K. Toyooka, M. Kaido, S. Yorifuji and T. Yanagihara (Japan) 53

Glial fibrillary acidic protein in CSF of multiple sclerosis patients: relation to neurological deficit
L.E. Rosengren, J. Lycke and O. Andersen (Sweden) 61

Magnetic resonance imaging of the corticospinal tracts in amyotrophic lateral sclerosis
S.-i. Terao, G. Sobue, T. Yasuda, T. Kachi, M. Takahashi and T. Mitsuma (Japan) 66

Studies of dementia, depression, electrophysiology and cerebrospinal fluid monoamine metabolites in patients with Parkinson's disease
L.-G. Chia, L.-J. Cheng, L.-J. Chuo, F.-C. Cheng and J.-S. Cu (Taiwan) 73

Anti-alpha- and beta-tubulin IgM antibodies in dysimmune neuropathies
E. Manfredini, E. Nobile-Orazio, S. Allaria and G. Scarlato (Italy) 79

Administration of myelin basic protein synthetic peptides to multiple sclerosis patients
K.G. Warren and I. Catz (Canada) 85

Antibodies to recombinant synaptotagmin and calcium channel subtypes in Lambert-Eaton myasthenic syndrome
M. Takamori, M. Takahashi, Y. Yasukawa, K. Iwasa, Y. Nemoto, A. Suenaga, S. Nagataki and T. Nakamura (Japan) 95

Characterization of cerebral white matter lesions of HTLV-I-associated myelopathy/tropical spastic paraparesis in comparison with multiple sclerosis and collagen-vasculitis: a semiquantitative MRI study
A.J. Godoy, J.-i. Kira, K. Hasuo and I. Goto (Japan) 102

Quinolinic acid in tumors, hemorrhage and bacterial infections of the central nervous system in children
M.P. Heyes, K. Saito, S. Milstien and S.J. Schiff (USA) 112

Relationship between myelin sheath diameter and internodal length in axons of the anterior medullary velum of the adult rat
M. Ibrahim, A.M. Butt and M. Berry (UK, United Kingdom) 119

CAG repeat expansion of Machado-Joseph disease in the Japanese: analysis of the repeat instability for parental transmission, and correlation with disease phenotype
H. Sasaki, A. Wakisaka, T. Fukazawa, K. Iwabuchi, T. Hamada, A. Takada, E. Mukai, T. Matsuura, T. Yoshiki and K. Tashiro (Japan) 128

Defective production of interleukin-2 in patients with idiopathic Parkinson's disease
H. Klüter, P. Vieregge, H. Stolze and H. Kirchner (Germany) 134

Hereditary motor and sensory neuropathy associated with cerebellar atrophy (HMSNCA): a new disease
N. Fukuhara, T. Nakajima, K.-i. Sakajiri, N. Matsubara and M. Fujita (Japan) 140

Neurocysticercosis: optimal dose treatment with albendazole
I. Cruz, M.E. Cruz, F. Carrasco and J. Horton (Ecuador, UK) 152

Expression of developmentally regulated cytoskeleton and cell surface proteins in childhood spinal muscular atrophies
C. Soubrouillard, J.F. Pellissier, H. Lepidi, J. Mancini, G. Rougon and D. Figarella-Branger (France) 155

A clinical and genetic study of familial cases of Parkinson's disease
V. Planté-Bordeneuve, D. Taussig, F. Thomas, M. Ziégler and G. Said (France) 164

Deletion in chromosome 17p11.2 including the peripheral myelin protein-22 (PMP-22) gene in hereditary neuropathy with liability to pressure palsies
F. Umehara, T. Kiwaki, H. Yoshikawa, T. Nishimura, M. Nakagawa, W. Matsumoto, K.-i. Hashimoto, S. Izumo, Y. Arimura, K. Arimura, M. Kuriyama and M. Osame (Japan) 173

Lack of effect of histological lesions on the phenytoin and phenobarbital concentrations in the brain cortex of epileptic patients
R. Schnabel, B. Rambeck, T.W. May, U. Jürgens, R. Lahl and R. Villagrán (Germany) 177

Interleukin-2 *Pseudomonas* exotoxin chimeric protein is cytotoxic to B cell cultures derived from myasthenia gravis patients
I. Steinberger, T. Brenner and H. Lorberboum-Galski (Israel) 183

Short reports

A skeletal muscle sodium channel mutation in a Japanese family with paramyotonia congenita

T. Yamada, H. Ochi, H. Hara, T. Yoshimura and T. Kobayashi (Japan) 192

Myasthenia gravis, acute transverse myelitis, and HTLV-I
T. Ijichi, Y. Adachi, A. Nishio, T. Kanaitsuka, T. Ohtomo and M. Nakamura (Japan) 194

Seronegative myasthenia gravis associated with atonic urinary bladder and accommodative insufficiency
M. Matsui, M. Enoki, Y. Matsui, S. Oono, M. Ohta, A. Suenaga and Y. Kuroda (Japan) 197
